

I request the FCC to reject the NAB's petition 04-160 and support XM radio's ability to broadcast local traffic and weather conditions. I have been willing to pay a subscription fee for the service offered and do not believe the NAB should dictate what I am permitted to hear. Until commercial broadcast radio will offer the same service, I feel XM radio is filling a void in their system.

I request you support XM radio's ability to provide this kind of service to its members.
